

Sensormatic® AMT-1000 Hard Tag and AMD-1000 Detacher

The *ideal* tagging solution for smaller retailers

Benefits

- *Excellent anti-theft deterrence and detection in one tiny tag*
- *Cost-effective for budget-minded retailers*
- *Easy to use*

The security solution developed specifically for small- to mid-sized retailers. The Sensormatic AMT-1000 hard tag delivers exactly what retailers like: performance and value. The tag contains the same Ultra•Max® technology used by many of the world's leading retailers. It's also super lightweight and useful for all kinds of apparel, including delicate and specialty goods. Add the easy-to-use AMD-1000 detacher, and you have the ideal tagging solution.

A specific solution for specific needs

Unlike larger stores, small, mid-sized, and independent retailers sometimes have greater difficulty recovering loss of revenue from merchandise theft. The AMT-1000 tag, combined with the APS-100 Anti-Theft Detection System, provides the same high-quality Sensormatic protection used by many of the world's largest retailers—but at a price that's cost-effective for smaller retailers.

Kind to shoppers as well as merchandise

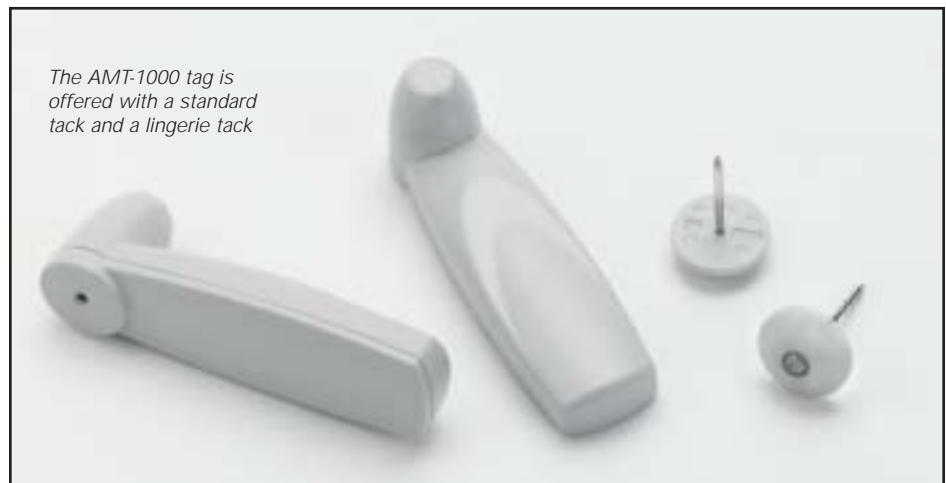

Delicate and smaller merchandise present a special set of anti-shoplifting challenges. Retailers want both reliable protection and comfort for customers who will be trying on lingerie, shoes, and other tagged garments. The AMT-1000 tag helps meet those challenges.

The lightest Ultra•Max tag ever

AMT-1000 tags are small and incredibly light. They're great for shoes and all kinds of apparel, from shirts, slacks, dresses, and jackets to swimsuits, scarves, and lingerie. An optional lingerie tack helps avoid snags and pulls on extremely sensitive articles.

A detacher you'll get attached to

The small-profile AMD-1000 detacher is easy to use and mounts

just about anywhere. You can secure the AMD-1000 detacher to the top of the counter or flush to the countertop to make the most of your counter space. The black color and sleek design complements just about any decor.

Tough, yet compatible

Like all Sensormatic products, the AMT-1000 tagging system is designed, manufactured and thoroughly tested according to our rigorous standards. It works with your APS-100 Anti-Theft Detection Systems and all other Sensormatic Ultra•Max detection systems to protect your existing security investment.
